EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in an interview with Douglas Hanscom, no. 26,600 on 4 May, 2004.

The application has been amended as follows:

The title has been changed to: "Printing unit of a rotary printing press with cylinders having barrel end and intermediate support rings."

In the claims:

Claim 44 has been canceled.

Allowable Subject Matter

2. Claims 41-43, 45-46, and 49-56 are allowed.
3. The following is an examiner's statement of reasons for allowance:

Regarding claim 41, while the prior art of record cited in previous actions does teach barrel end support rings, and intermediate support rings on form and impressions cylinders, the prior art of record does not teach or render obvious a printing unit of a rotary printing press having all of the elements as claimed, including the inclusion of intermediate supports rings on at least one of said ink roller and said ink transfer cylinder, wherein the intermediate support ring of the form cylinder acts against the intermediate support ring of the at least one of said ink roller and said ink transfer cylinder.
